

Cookie Notice

Last updated: June 27th, 2025

This Cookie Notice explains how SpinX Games Ltd., its partners, parent companies, subsidiaries, licensees, licensors and affiliates, including Grande Games Ltd. and Beijing Bole Technology Co., Ltd. ("**SpinX**", "**we**", "**us**" and "**ours**") use cookies and similar technologies to recognise you when you visit our websites at spinxgames.com, jackpot-world.com, cash-frenzy.com, cashclubcasino.com, jackpot-wins.com and www.bolegames.com ("**Websites**"). It explains what these technologies are and why we use them, as well as your rights to control our use of them.

What are cookies?

Cookies are small data files that are placed on your computer or mobile device when you visit a website. Website owners can use cookies for a variety of reasons that can include enabling their websites to work (or work more efficiently), providing personalised content and advertising, and creating website analytics.

Cookies set by the website owner (in this case, SpinX) are called "first party cookies". Only the website owner can access the first-party cookies it sets. Cookies set by parties other than the website owner are called "third-party cookies". Third party cookies enable third-party features or functionality to be provided on or through the website (e.g. like advertising, interactive content and social sharing). The parties that set these third-party cookies can recognise your device both when it visits the website in question and also when it visits other websites that have partnered with them.

Why do we use cookies?

We use first party and third-party cookies for several reasons. Some cookies are required for technical reasons that are strictly necessary for our Websites to operate, and we refer to these as "essential" cookies. Other cookies also enable us to provide our Websites' functionality, or to enhance visitors' experience on our Websites by providing them with personalised content and advertising.

The specific types of first- and third-party cookies served through our Websites and the purposes they perform are described in our cookie consent tool, which you can access [here](#).

What about other tracking technologies, like web beacons and similar technologies?

Cookies are not the only way to recognise or track visitors to a website. We may use other, similar technologies from time to time, like web beacons (sometimes called "tracking pixels" or "clear gifs"). These are tiny graphics files that contain a unique identifier that enable us to recognise when someone has visited our Websites or opened an e-mail that we have sent them. This allows us, for example, to monitor the traffic patterns of users from one page within our Websites to another, to deliver or communicate with cookies, to understand whether you have come to our Websites from an online advertisement displayed on a third-party website, to improve site performance, and to measure the success of e-mail marketing campaigns. In many instances, these technologies are reliant on cookies to function properly, and so declining cookies will often impair their functioning.

How can you control cookies?

You have the right to decide whether to accept or reject cookies that are not essential. You can exercise your cookie preferences through our cookie consent tool, which you can access [here](#).

You can also set or amend your web browser controls to accept or refuse cookies.

•**Cookie controls.** Most web browsers are set to accept cookies by default. If you prefer, you can go to your browser settings to learn how to delete or reject cookies. If you choose to delete or reject cookies, this could affect certain features or services of our Websites. If you choose to delete cookies, settings and preferences controlled by those cookies, including advertising preferences, may be deleted and may need to be recreated.

•Global Privacy Control. Some browsers and browser extensions support the "Global Privacy Control" (GPC) or similar controls that can send a signal to the websites you visit indicating your choice to opt-out from certain types of data processing, including data sales and/or targeted advertising, as specified by applicable law. When we detect such a signal, we will make reasonable efforts to respect your choices indicated by a GPC setting or similar control that is recognized by regulation or otherwise widely acknowledged as a valid opt-out preference signal.

•Do Not Track. Some browsers have incorporated "Do Not Track" (DNT) features that can send a signal to the websites you visit indicating you do not wish to be tracked. Because there is not a common understanding of how to interpret the DNT signal, our Websites do not currently respond to browser DNT signals. Instead, you can use the range of other tools to control data collection and use, including the cookie controls and advertising controls described above.

These choices are specific to the device or browser you are using. If you access our Website from other devices or browsers, take these actions from those systems to ensure your choices apply to the data collected when you use those systems.

Email web beacons. Most email clients have settings which allow you prevent the automatic downloading of images, including web beacons, which prevents the automatic connection to the web servers that host those images.

Except for the automated controls described above, if you send us a request to exercise your rights or these choices, to the extent permitted by applicable law, we may decline requests in certain cases. For example, we may decline requests where granting the request would be prohibited by law, could adversely affect the privacy or other rights of another person, would reveal a trade secret or other confidential information, or would interfere with a legal or business obligation that requires retention or use of the data. Further we may decline a request where we are unable to authenticate you as the person to whom the data relates, the request is unreasonable or excessive, or where otherwise permitted by applicable law. If you receive a response from us informing you that we have declined your request, in whole or in part, you may appeal that decision by submitting your appeal using the contact methods described in our [Privacy Policy](#).

If you choose to reject cookies, you may still use our website though your access to some functionality and areas of our website may be restricted. As the means by which you can refuse cookies through your web browser controls vary from browser-to-browser, you should visit your browser's help menu for more information.

In addition, most advertising networks offer you a way to opt out of targeted advertising. Many of our partners may participate in associations that provide simple ways to opt out of cookies, analytics and ad targeting, which you can access at:

- United States: NAI (<http://optout.networkadvertising.org>) and DAA (<http://optout.aboutads.info/>)
- Canada: Digital Advertising Alliance of Canada (<https://youradchoices.ca/>)
- Europe: European Digital Advertising Alliance (<http://www.youonlinechoices.com/> or <http://www.aboutads.info/choices/>).

How often will we update this Cookie Notice?

We may update this Cookie Notice from time to time in order to reflect, for example, changes to the cookies we use or for other operational, legal or regulatory reasons. Please therefore re-visit this Cookie Notice regularly to stay informed about our use of cookies and related technologies.

The date at the top of this Cookie Notice indicates when it was last updated.

Where can you get further information?

If you have any questions about our use of cookies or other technologies, please email us at privacy@spinxgames.com.
